

Rover Takes Over

Using the (x,y) axes, copy and complete a picture by connecting the points below in the order given. Begin with the first set of ordered pairs and go down the first column. Then move to the next column. Remember that the first number listed is always found on the horizontal axis and the second is always on the vertical axis. Place a dot at each intersection given and connect the dots as you locate each coordinate. Do not connect dots across a STOP sign.

(-4, 11)	(5, -14)	(-1, 2)	(4, -1)	(-5, -9)	(7, 4)	SHADE IN
(-4, 12)	(5, -15)	(-4, 4)	(6, -2)	(-4, -8)	STOP	(9, 12)
